

Out of the Box Art Studio **Spring 09**

We are very excited to offer so many art forms for you and your children at "Out Of the Box Art Studio". We hope you will see that it is ALL about creativity. This is why we choose to offer art forms in Fine Arts, Folk Arts and a Contemporary Ceramics Studio. As each of us is very different, so are the ways in which we choose to create. We are blessed with a wide variety of talented teachers to share this dream with us.

"Out of the Box" Webster says: 1. an expression that describes things CREATIVE... A synonym for "brand new", Immediate, just created!

Session 1 begins Monday MARCH 16th and end Friday MAY 15th 2009...

All classes are 8 weeks (except workshops) to give students time to explore all aspects of the art medium they are working with. We also plan to have an art exhibit on the final week of classes.

Some classes will not be offered again this year so please feel free to call or email any questions you might have.

One of the many things that make OOTB unique is that we always love including parents in our creativity. You may come observe a class, take a class alongside your child, or drop your child off and have a few hours to yourself! It's up to you. All families are different; we want to provide an art experience that fits everyone!

Blessings, The McGill family and the OOTB staff.

"I am still far from being what I want to be...but with God's help, I shall succeed"
